# ...and I'll sit on your inventory until you need it!

I'm Joseph Masters, president of The ORBITAL SAW Co., Inc. And right now, because of the strength of the American Dollar versus the British Pound, I'm sitting on a deal on orbital log saw blades and facial tissue knives that stacks up as quite a money-saver!

## 6% Discount

First, order 20 or more orbital log saw blades or facial tissue knives from me on or before November 15, 1984, and I'll give you a volume discount of 6% on your total order.

## Zero Inventory

Then, to save you the space and expense of storing those blades, just tell me how many you need right now. I'll send you just that number of blades, and I'll store the rest in my warehouse at my expense, **with no inventory fees whatsoever on your part** for shipment anytime within the next 12 months.

## Same-Day Shipping

Whenever you need more of your blades or knives, simply give us a call. As soon as we hang up the phone we'll begin to process your order, so **your blades or knives are shipped the same day as your call is received.**

Every blade we sell is the best you can buy. And when you buy a bunch now, you'll save twice over.

So, don't wait to take advantage of this limited time offer. Call me today — and pile on the savings.
